

COUGH-LOK

The Cough-Lok is a superb aid for protecting patients after major abdominal or thoracic surgery, such as a sternotomy. The Cough-Lok wraps securely round the patient with easy pull handles to adjust for tightness and locks into position using strong Velcro.

- Suitable for all body shapes and sizes
- Popular with post-operative patients to increase comfort and security, control movement and give restraint during coughing or sudden movement
- Easy for patient to fit – suitable for both in and out-patient use
- Durable and washable construction
- Easy Velcro fastening enables it to adhere in any position, any tightness
- The Cough-Lok is supplied in 3 lengths, 126cm, 147cm and 252cm
- The longest of these belts can also be used as a trolley strap
